

Sakha-Japanese relations in the Arctic and the North. History and developing prospective.

Ministry for External Relations and Ethnic Affairs of the
Sakha Republic (Yakutia) of the Russian Federation

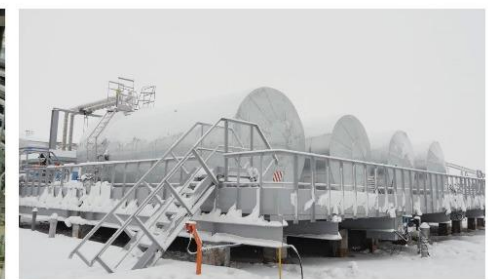

Since 70's of the last century we
successfully cooperate with
Japanese Government and
companies in a sphere of Industry,
Agriculture and Energy

Sakha-Japanese Investment Seminar (Tokyo, 2018)

Round-year greenhouse “Sayuri” (Yakutsk, 2019)

Energy management system (Tiksi, 2020)

We also cooperate with scientific institutes of Japan for Arctic region development and more

International school on Sustainable Development of the Arctic
(Yakutsk, 2019)

Long-distance learning
(Yakutia – Japan, 2020)

Science lab in NEFU (Yakutsk, 2020)

Moreover, energy infrastructure is already completed in Tiksi and can cover Naiba project too.

Large investment projects in the fuel, energy, mining and transport complex.

All projects will be implemented in accordance with the Strategy for the Development of the Arctic Zone of the Russian Federation and Ensuring National Security for the Period up to 2035.

❖ Geographic and climatic features hinder project implementation

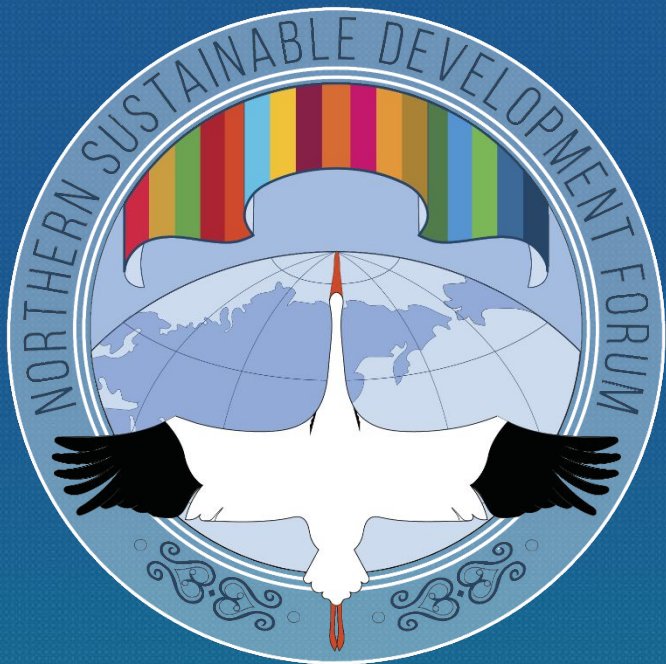

❖ Overcoming difficulties together

❖ Sustaining industrial infrastructure in the North

The Northern Forum on Sustainable Development is held for uniting the creative forces of government agencies, companies, organizations, experts and specialists in solving the problems of development of the regions of the North and the Arctic.

The Northern Forum on Sustainable Development (Yakutsk, 2019)

The Northern Forum on Sustainable Development (Yakutsk, 2019)

Prevalence of hereditary diseases
in the Arctic and the North
exceeds the global indicators.

Genome decoding opens up new
opportunities and prospects for
molecular diagnostics and
screening of hereditary diseases,
their prevention and treatment
among residents of the Arctic
regions of the world.

Thanks for your attention!
