Simultaneously we are running two-way short-term (3-month) student exchange programs with credit exchange with Sakhalin State University ("ESD Global Partnership for Collaborative Learning Program") and send 2-4 undergraduate students to SSU. Both programs are developed as comprehensive academic programs for future leaders in social education with a view to attaining the SDGs (Sustainable Development Goals) set by the United Nations. They are aimed at deepening students' cross-cultural understanding in a multi-language education environment and providing them with opportunities of practical application of their skills. The latter endeavor in particular aims at creating the environment for a high-level integrated study of challenges associated with SDGs from the perspective of pedagogy by offering students a choice of 4 areas of specialization: fundamental pedagogy, social pedagogy, pedagogical psychology, health and physical education (credit exchange of 7 subjects). We aim at training specialists with a global perspective and promoting people-to-people exchange with a view to further strengthen the ties between Hokkaido and Sakhalin, two historically and geographically connected areas, via professional education.					1) Faculty of Education, International Exchange Program https://www.edu.hokudai.ac.jp/graduate_school/international/ 2) The course of the HSI (Hokkaido Summer Institute) (listed on the HSI webpage, as it can be taken by foreign students as well) https://hokkaidosummerinstitute.oia.hokudai.ac.jp/courses/CourseDetail=U012	Keiko IKEDA
